

Pilasters and telescopic runners

The telescopic runners placed in our medicine cabinets close softly and have a load capacity of 30/50 kg/runner pair. The attachment method allows easy adjusting of the runners.

Baskets, drawers, frames, work surfaces and other accessories can be placed directly on the runners.

Art. 7930104, telescopic runner, softclose 400, open 110%, max. load 30kg.

Art. 7930103, telescopic runner, softclose 600, open 110%, max. load 30kg.

Art. 7930155, telescopic runner 600, extension on both sides, max. load 50kg.
